SKILLS

- HTML
- CSS
- Flutter
- GetX
- Flutter DIO
- Python
- C#
- Java
- SQL
- Figma
- FastAPI
- MongoDB

LANGUAGES

- Khmer : Native
- English : Good

ABOUT ME

I am flexible, reliable, self-motivated and hard-working. My personal understanding about Computer Science and engineering are from Royal University of Phnom Penh. I love challenging myself and solve all the problems I've faced at school with creative ideas as well as critical thinking, more than that I love to help others when they need help with their school works or projects. "The more errors and challenges I face, the more I am able to learn."

EXPERIENCE

C/C++ Teacher

Teach in Class, Royal University Of Phnom Penh

2025 - 2026

This experience helped me improve both my technical skills and my way of thinking as a developer, such as:

- I learned how to prepare and understand program structure in C/C++. I understand how to organize code properly by separating it into header files (.h) and source files (.cpp), and how to manage projects using Makefile or CMake so the code is scalable and easy to maintain.
- I learned how to work with memory management. I now know how to allocate and free memory using malloc/free in C and new/delete in C++, handle pointers correctly, and avoid common issues such as memory leaks, dangling pointers, and buffer overflow.

EDUCATION

2023 - Present

Royal University Of Phnom Penh (RUPP)

Bachelor of Computer Science

(Year 4, Semester 1)

2025 - Present

Study Mobile App Flutter at ANT Training Technology Center

(Scholarship From MPTC CBRD)

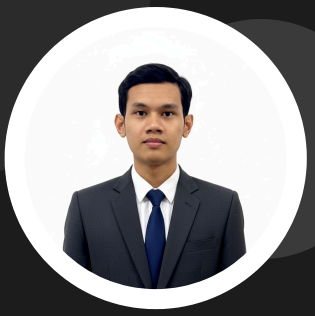

2017 - 2023

Moung Ruessei High School

High School Graduate, BacII

CHOUB KHUNRITHY

Mobile Developer

031 228 7763 choubkhunrithy@gmail.com Teuk Laak II, Phnom Penh

Dear Hiring Manager,

I am writing to express my interest in the Mobile Developer position at Maybank. With a strong foundation in software development and a growing passion for building reliable, user-friendly mobile applications, I am excited about the opportunity to contribute to your technology team.

My name is Choub Khunrithy, and I am currently a Year 4, Semester 1 student majoring in Computer Science at the Royal University of Phnom Penh. I have hands-on experience in application development, particularly in mobile and backend-related projects, working with technologies such as Flutter, GetX, Flutter DIO, FastAPI, and MongoDB. I am familiar with object-oriented programming principles, clean architecture, and version control using Git, and through my academic projects and self-learning I have developed strong problem-solving skills and the ability to quickly adapt to new technologies.

I am especially interested in this opportunity because it aligns with my goal of growing as a Mobile Developer and contributing to meaningful projects that positively impact users. I understand the importance of performance, usability, and reliability in mobile applications, and I am motivated to build software that is scalable, well-structured, and user-focused.

In addition to my technical skills, I am a responsible and motivated individual who enjoys teamwork and continuous learning. I am confident that my enthusiasm for software development, combined with my willingness to learn and improve, would allow me to be a valuable addition to your organization. I am eager to apply my technical skills, creativity, and dedication to help your team build reliable and engaging mobile applications.

Thank you for considering my application. I would welcome the opportunity to further discuss how my skills and interests align with the goals of your organization. I look forward to your positive response.

Sincerely,

Choub Khunrithy
